

40 LW Air Handling Unit

A new concept in cost effective air management-the compact, ceiling suspended 40 LW chilled water air handling unit

Product Features:

- Ceiling mounted, ductable type saves valuable floor space
- Compact size saves installation space and time
- Low height fits easily in the false ceiling space
- DIDW centrifugal blowers quiet and suitable for long ducting
- Multiple speed/variable speed adjusts the cooling according to load and saves energy
- High efficiency dual sine wave fin, cooling coils effective heat transfer
- 15 micron synthetic, non woven filters easily serviceable
- Powder coated GI sheet construction rugged and durable
- Polyethylene insulation fire resistant, minimizes condensation and reduces sound levels
- Room thermostat and 3-speed switch value added optional accessories
